

XXII International Conference on Organic Synthesis

16-21 September 2018, Florence, Italy

Scientific outlines

The 22-ICOS Conference will bring together scientists from all parts of the world to share their interests in the wide and inspiring field of organic synthesis.

The Conference will cover the broad spectrum of organic synthesis highlighting modern trends in:

- Natural products synthesis
- Synthetic methodology
- Catalysis
- New synthetic technologies
- Medicinal Chemistry and Chemical Biology
- Synthesis of nano- and functionalized Materials

Venue: Congress Center located in
downtown Florence near railroad station

**EurJOC Lecture by Nobel Laureate
Ben Feringa**

Thieme-IUPAC Prize Lecture

10 Plenary lectures

17 Invited lectures

66 Oral communications

450 Poster communications

Confirmed speakers

Varinder K. Aggarwal (UK)

Mercedes Amat (ES)

Olivier Baudoin (CH)

Stefan Bräse (DE)

Erick M. Carreira (CH)

André Charette (CA)

Janine Cossy (FR)

Dilip D. Dhavale (IN)

Darren J. Dixon (UK)

Alois Fürstner (DE)

Cesare Gennari (IT)

Véronique Gouverneur (UK)

Yujiro Hayashi (JP)

Masayuki Inoue (JP)

Dawei Ma (CN)

Géraldine Masson (FR)

Nuno Maulide (AU)

David McMillan (US)

Kilian Muñiz (ES)

Joëlle Prunet (UK)

Sandrine Py (FR)

Floris Rutjes (NL)

Alexander Terent'ev (RU)

Christina M. White (US)

Eun Jeong Yoo (KR)

Franca Zanardi (IT)

Jieping Zhu (CH)
